

September 2014

Mike Florio has released **Reconcile**, the long-awaited follow-up to his first solo album, **Arisen**. **Reconcile** navigates a path of rigorous musicality and self-expression through epic progressive rock terrain.

"This album brims with excellent tunes and a delivery that is top notch ... many tracks are powerful and grandiose. ... Still with the brilliant and original touch of Florio's compositions! There is not a dull moment here, no fillers, just brilliant prog rock music in the US style!!" - Prog Planet

"This is a well produced album full of excellent musicianship and strong melodies. ...there is something wonderfully nostalgic about Reconcile. It is definitely progressive, but there is also an AOR edge to pretty much every track. ... There is a definite quality to the compositions on Reconcile that moves it substantially ahead of many similar retro-sounding albums. In fact, there are several songs to be found here that could have easily found a home on the commercial rock radio of the 80s. The melodies have substance, and the choruses are often quite memorable. ... Also of note are the musical performances. Florio is an excellent keyboardist and his choice of sounds here is very entertaining. This album is a keyboard-lovers delight and his work throughout is impressive." - DPRP

"... compositions reflect the intricacies and time signatures inherit to progressive music, but he does not forsake accessibility in the process. ... The progressive facet manifests itself in the multiple instrumental excursions." - Angelic Warlord

- 1 SEEDS OF THE EARTH
- 2 RECONCILE
- 3 LETTER FROM BABYLON
- 4 THE WISE MAN
- 5 I PROMISE
- 6 ONLY ONE WAY
- 7 HOW WILL YOU KNOW?

Bass

STEVE GOLDEN  
Drums

Composed & Produced by MIKE FLORIO  
Mixed with PAUL AVGERINOS  
at Studio Unicorn  
Mastered by MICHAEL DOMINICI  
Music House Mastering  
Designed by YUKA FUJIWARA

Thanks to my wife Yuka for making  
the time to do yet another album cover;  
and to Bill, Dave and Steve, who I'll bet  
figured this thing would never be released.

Special thanks to Eddie Jerlin whose  
encouragement helped me to rescue this project  
from pre-production purgatory and bring it to life.

Dedicated to Fujiwara-san, my father-in-law.
